

FUTURE LEADERS

Summer 2023

A groundbreaking programme of leadership and innovation

WELCOME TO FUTURE LEADERS

The five-month Future Leaders programme is designed for forward-thinking professionals with 5-10 years' experience – the cohort will work in teams and develop the capability and skills to drive radical transformation and sustainability, while progressing and boosting confidence in their own individual leadership journeys.

They then return to their respective organisations equipped with this new thinking and inspiration, continuing to collaborate through involvement in the Future Leadership Forum.

CELEBRATING 10 YEARS OF FUTURE LEADERS

This summer we are running a special edition of Future Leaders to mark the tenth anniversary of the programme. The programme will run across multiple sites in Birmingham and London, as well as a nature-based off site.

The focus of the programme will be on taking ideas from the last 10 years of the programme and developing them into actionable business plans. Participants will gain skills in insight gathering, prototyping and experimentation as well as business model design.

THE PROGRAMME EXPERIENCE

The action-focussed programme runs across a **five-month** period and is structured in three parts:

1 KICK-OFF: Virtual call (5th July, online)

2 EXPLORE AND INITIATE: Workshop (18th - 20th July, Birmingham)

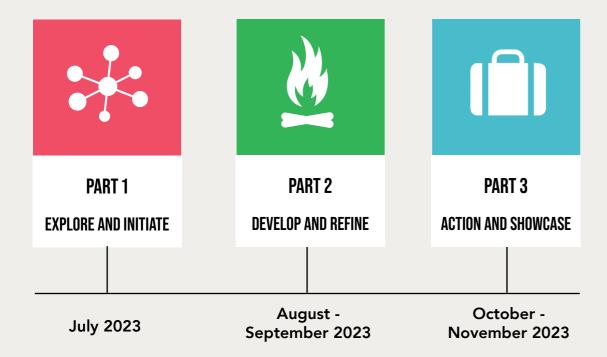

3 DEVELOP AND REFINE: Retreat (12th - 13th September, location TBC)

4 ACTION AND SHOWCASE: Workshop (18th October, hybrid) and showcase (29th November, London)

There will be 3 virtual touch points between these sessions: 10th August, 5th October, 10th January

GUIDED LEARNING

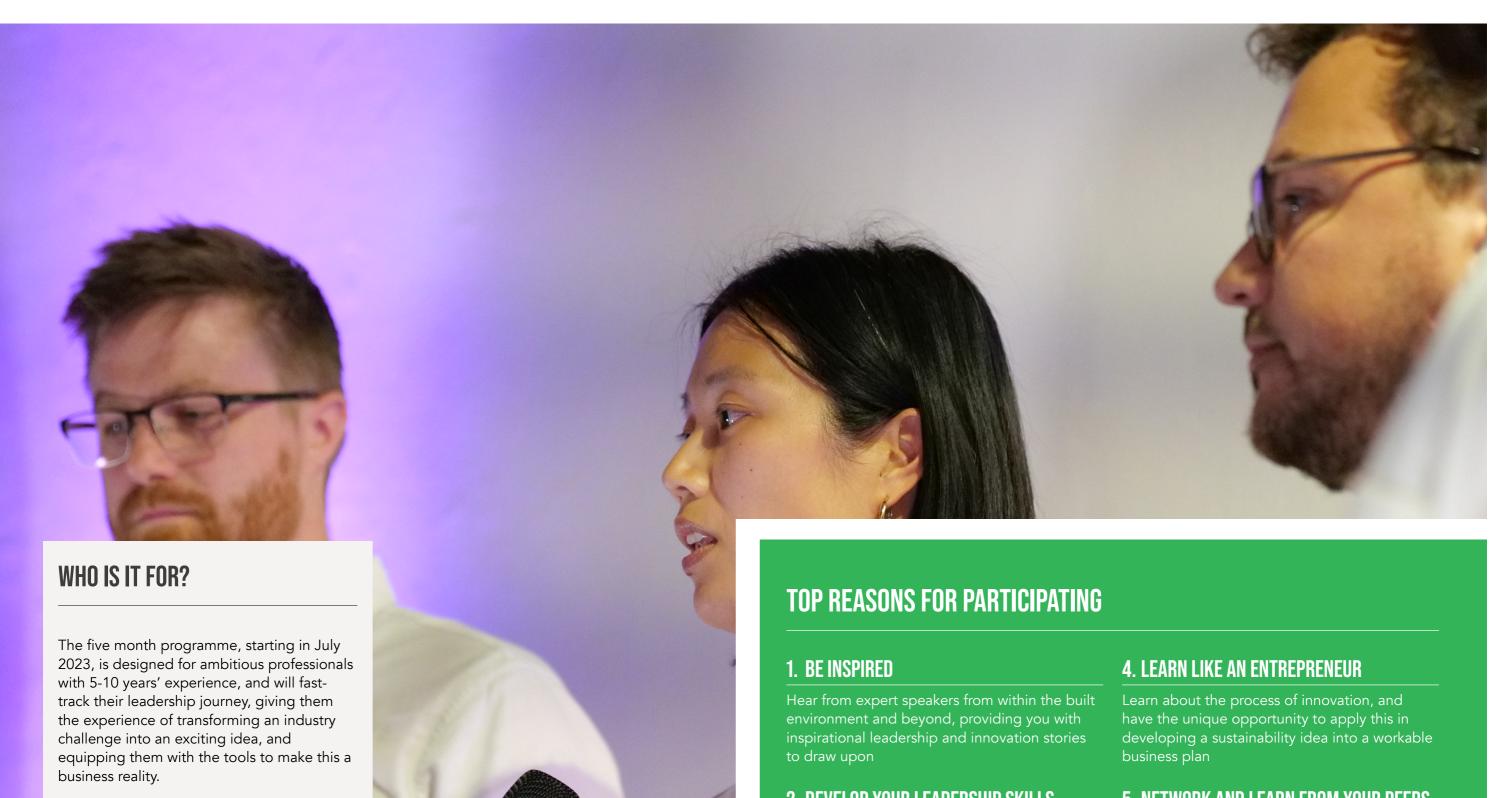

Participants will be expected to continue work on their projects and leadership reflections in between workshops. Guided learning is estimated at 40 hours in total, an equivalent of one full working day per month of the programme.

LEADERSHIP PROGRAMME ALUMNI GROUP

In the ten years since the programme's inception, the alumni community of UKGBC's leadership programmes has grown to include over 270 individuals, representing over 100 organisations from the built environment sector. UKGBC is dedicated to ensuring that this group has the opportunity to continue this journey with our support and has established a dedicated alumni group called the Future Leadership Forum that continues to work together beyond the programme to share experiences of sustainability leadership.

Future Leaders can come from any background from within the built environment sector, and are selected by their enthusiasm to learn, an openness to new ways of thinking, and a desire to challenge current ways of working. It is not by any means a prerequisite to have sustainability in your job title – in fact the diversity of perspectives is crucial to the programme's success.

2. DEVELOP YOUR LEADERSHIP SKILLS

Gain insights on leadership, purpose and reflect on the kind of leader you want to be and develop your own leadership style

3. DEVELOP YOUR STORY

Learn storytelling techniques to help you engage and inspire others, and maximise your influence

5. NETWORK AND LEARN FROM YOUR PEERS

Meet other professionals from across the built environment industry, grow your network, and develop important business to business relationships

PART 1: EXPLORE AND INITIATE (JULY)

In this first three-day session we take a look at the macro trends impacting the built environment and explore the role of design and innovative leadership in a more sustainable future.

We will identify and explore personal leadership values and purpose and start you on your journeys of personal leadership discovery.

Learning outcomes:

- Understand the external landscape, global trends and risks
- Explore the role of business and individuals in providing innovative leadership
- Learn about innovation processes and how to turn ideas into actionable business plans
- Identify your leadership growth areas and get insights from your peers, and programme facilitators and key note speakers

PART 2: DEVELOP AND REFINE (AUGUST - SEPTEMBER)

In Part 2 we will come back to the innovative ideas that the teams have been developing since the end of part 1, providing them with further insights from our speakers. Future Leaders will then look at their influencing and story-telling skills and we will explore personal leadership in more depth in this part of the programme.

These skills will allow them to develop the narrative that will allow them to coherently and effectively communicate their innovative ideas to stakeholders.

Learning outcomes:

- Explore key personal leadership skills and further work on key areas as identified in part 1 (own leadership journey)
- Understand the role of compelling storytelling in influencing others, learn how to create a story around your own ideas that allows it to be communicated effectively
- Deepen understanding about the innovation process and sustainable business models, including prototyping tools
- Crystalize your thinking in teams around your innovative ideas in conjunction with the innovation coach

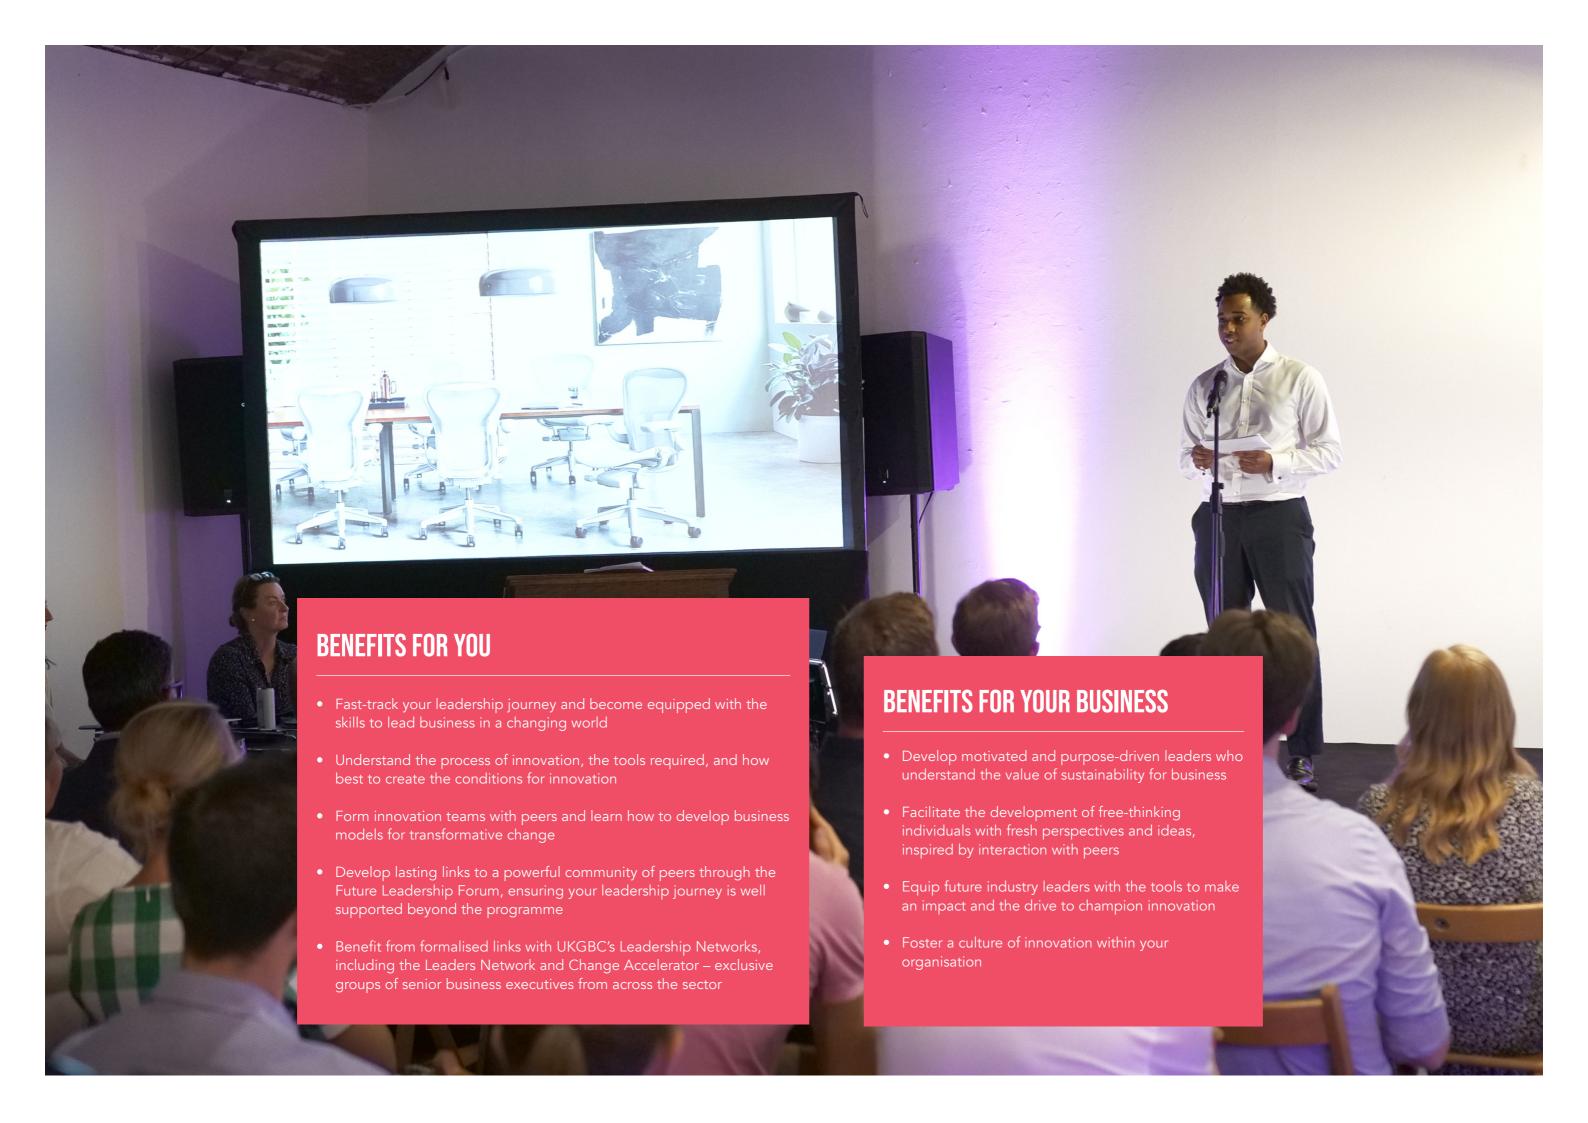

PART 3: ACTION AND SHOWCASE (OCTOBER - NOVEMBER)

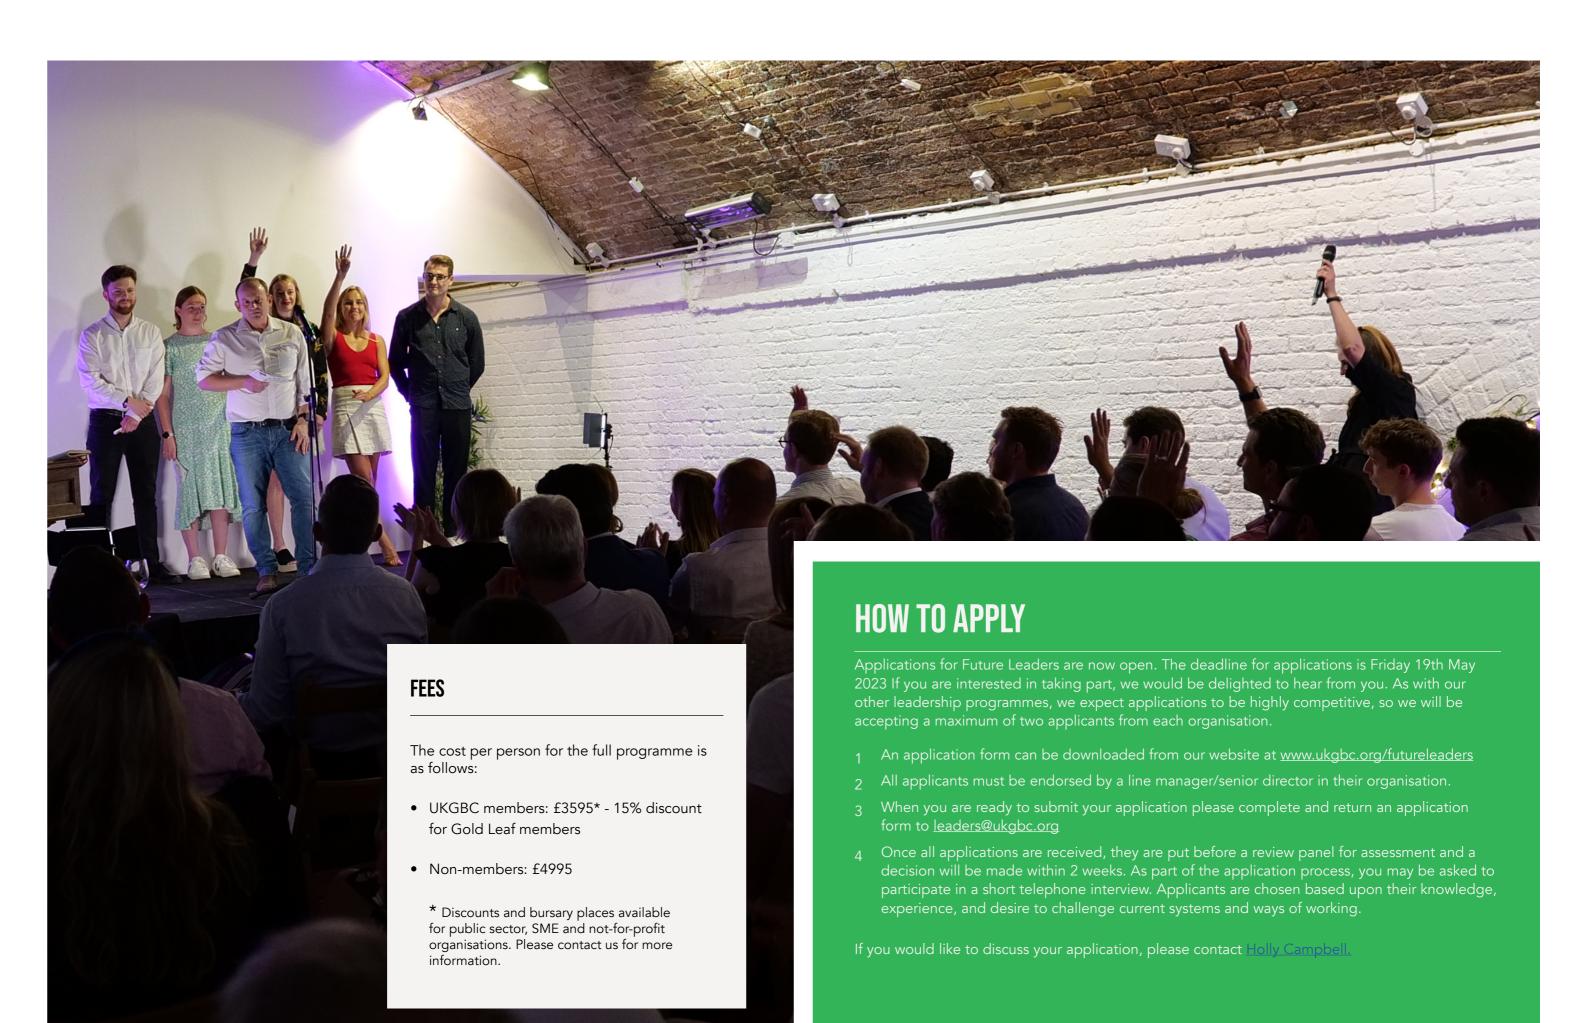

The programme ends with a mega showcase event with invitees from across the leadership levels where the personal and innovative leadership outcomes for Future Leaders are shared to inspire and trigger transformational change across the sector.

The programme concludes with a session of leadership reflection in which you will revisit your personal leadership plans and consider how to take your learnings from the programme further, as well as an opportunity to join the Leadership Alumni group.

Learning outcomes:

- Understand how your personal leadership journey has developed over the last five months, and identify areas still to be develope
- Identify the next steps and actions you will take on completion of the programme
- Turn theory and practice into action and impact through live performance delivery in the showcase event
