

CHANGE ACCELERATOR

Empowering built environment leaders
to drive transformational change

2023

WELCOME TO CHANGE ACCELERATOR

The Change Accelerator is a three month programme aimed for mid to senior level business leaders (+15 years' experience) working in the built environment with real influence over business strategy, and a remit for change.

Starting in September 2023 and running to December 2023, the programme convenes built environment leaders to champion transformational change in their organisations, aiming to support

the overall systemic shift needed in the sustainability of the built environment.

By the end of the programme participants will have a fresh perspective, renewed sense of purpose and be connected to a network of peers who will support them in the delivery of bold and sustainable outcomes for their own organisations.

“The Change Accelerator programme is a fantastic way to give your leadership a substantial boost. It is designed for mid to senior career professionals seeking to reflect on their own leadership journey and work with peers to define the ‘change they want to see’.

Radical change to a more sustainable future has never been more important than it is now, the urgency of the task is front of mind for businesses and leaders alike across the Built Environment.

This uniquely positioned programme aims to explore the change needed and the role each of us has to play individually and collectively to accelerate change in our organisations across the sector”.
